

# Transplant

## My Transplant Journey Colouring Book

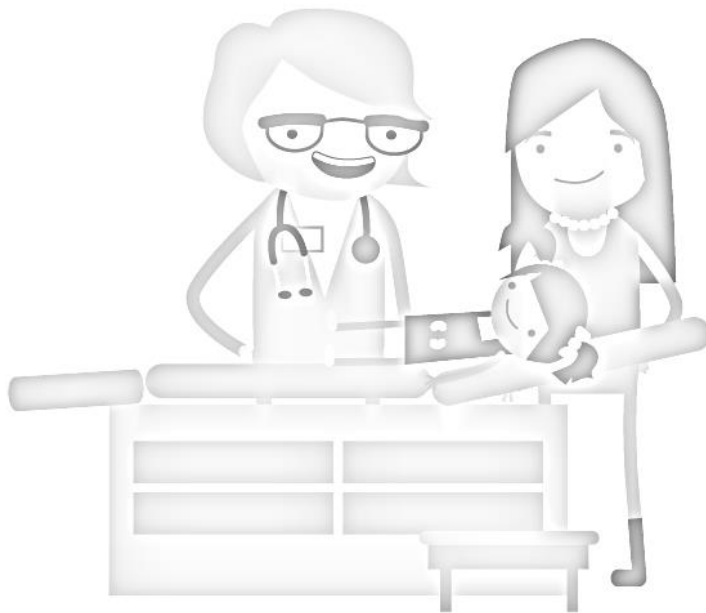

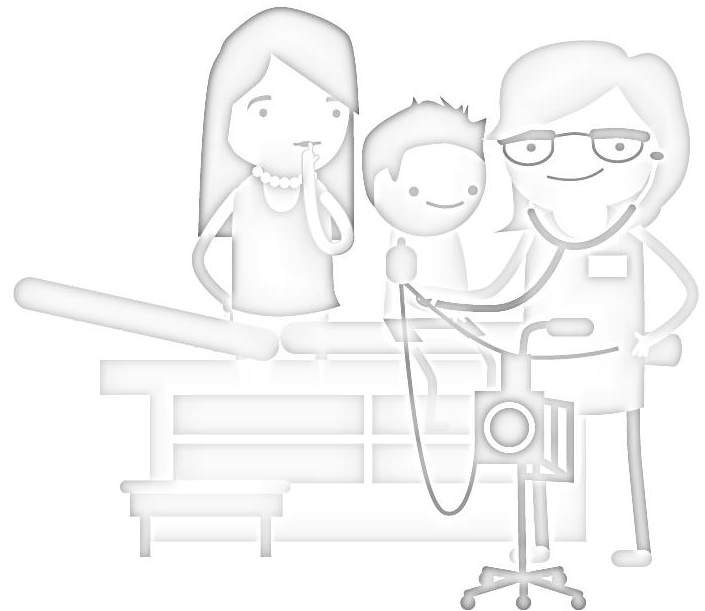

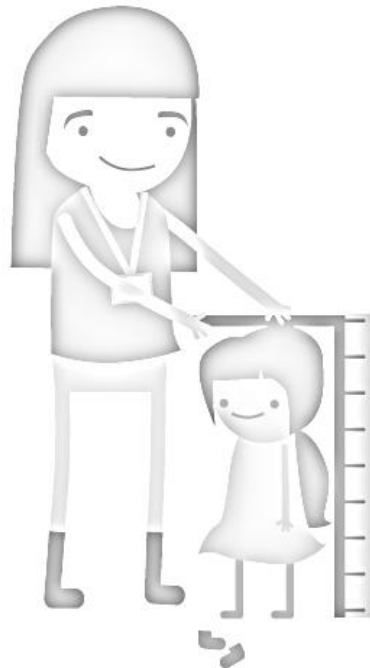

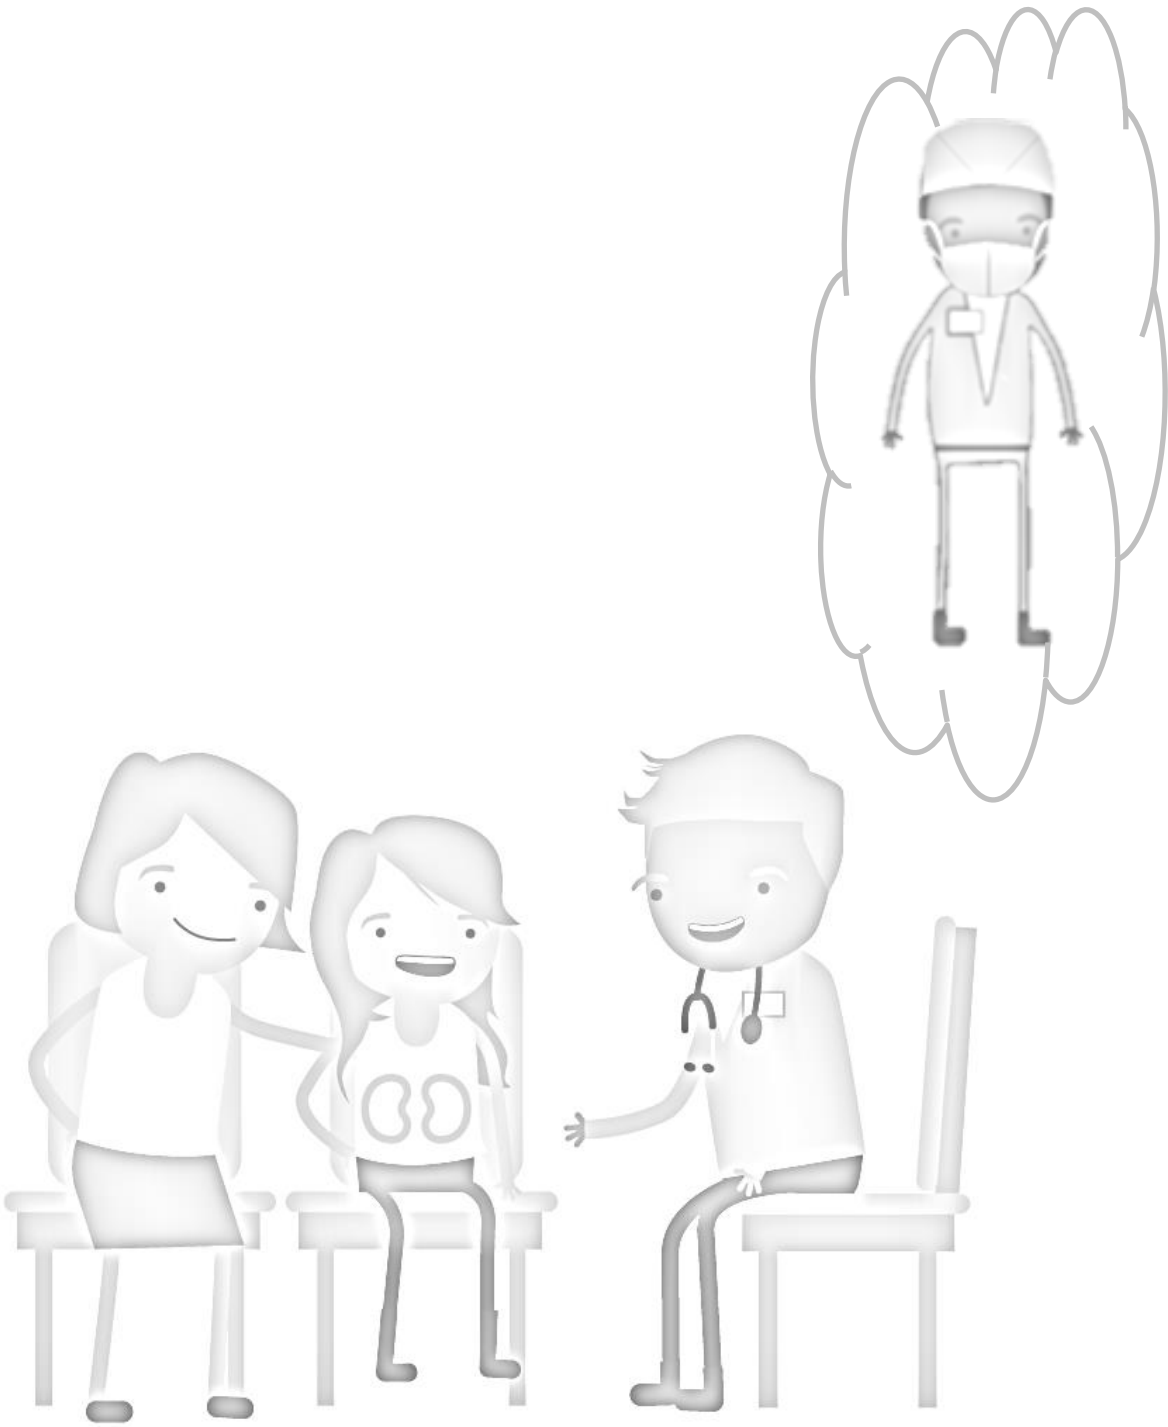

I have CKD. That means my kidneys don't work well.

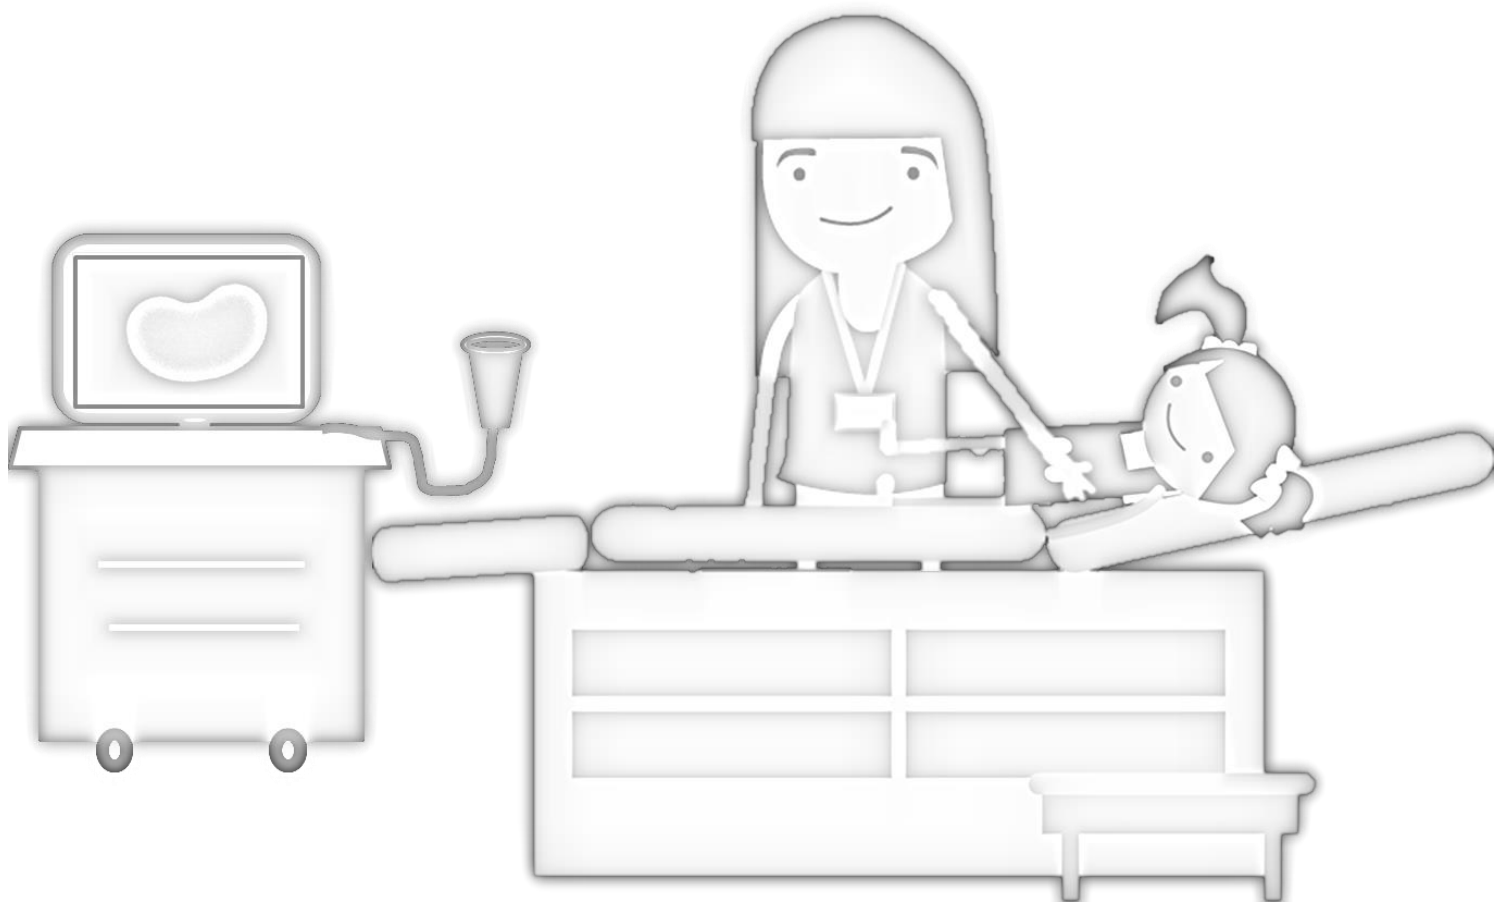

I have to see lots of doctors and  
nurses.

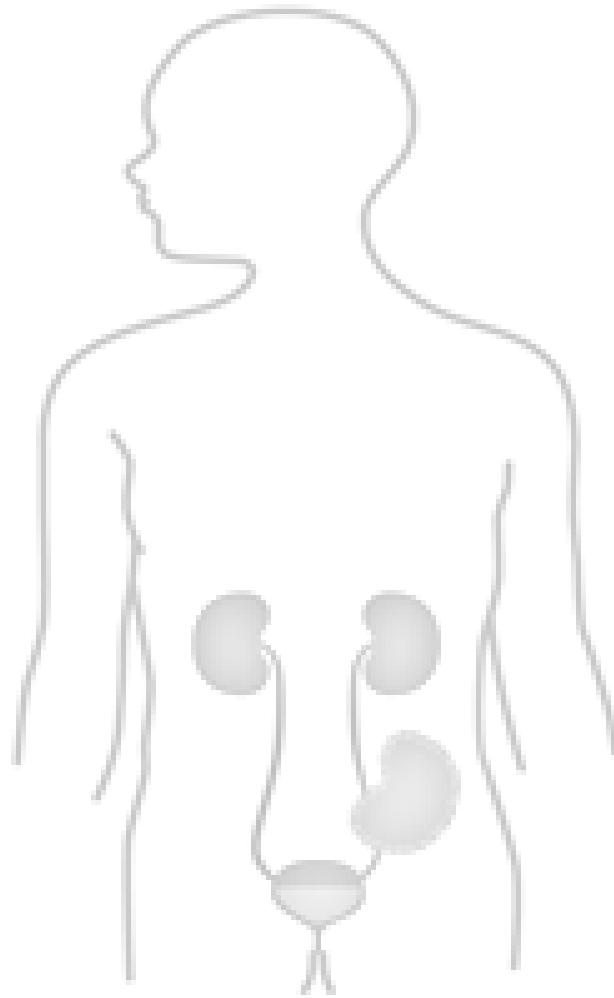

Everybody at the Kidney Health Clinic wants to help me feel better.

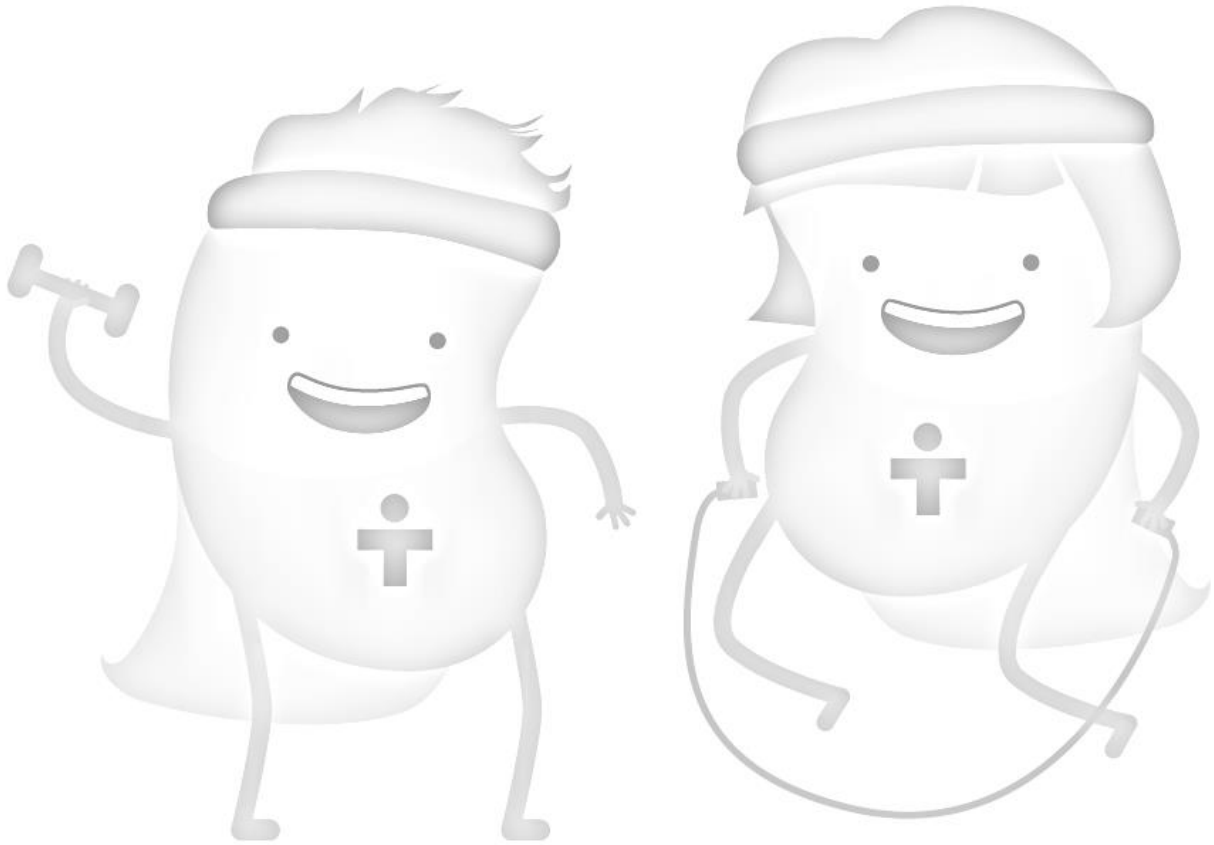

Today the doctor told me that I  
need an operation.

To get ready for my kidney transplant,  
I need some special tests. I will need to  
see lots of doctors.

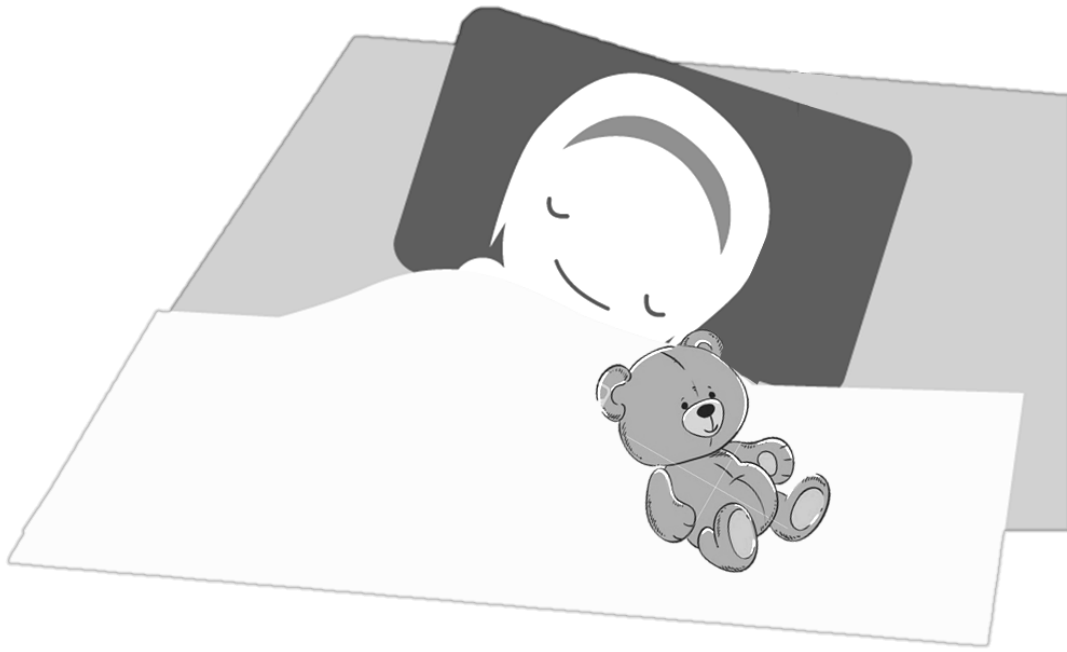

I hope to get a kidney transplant!

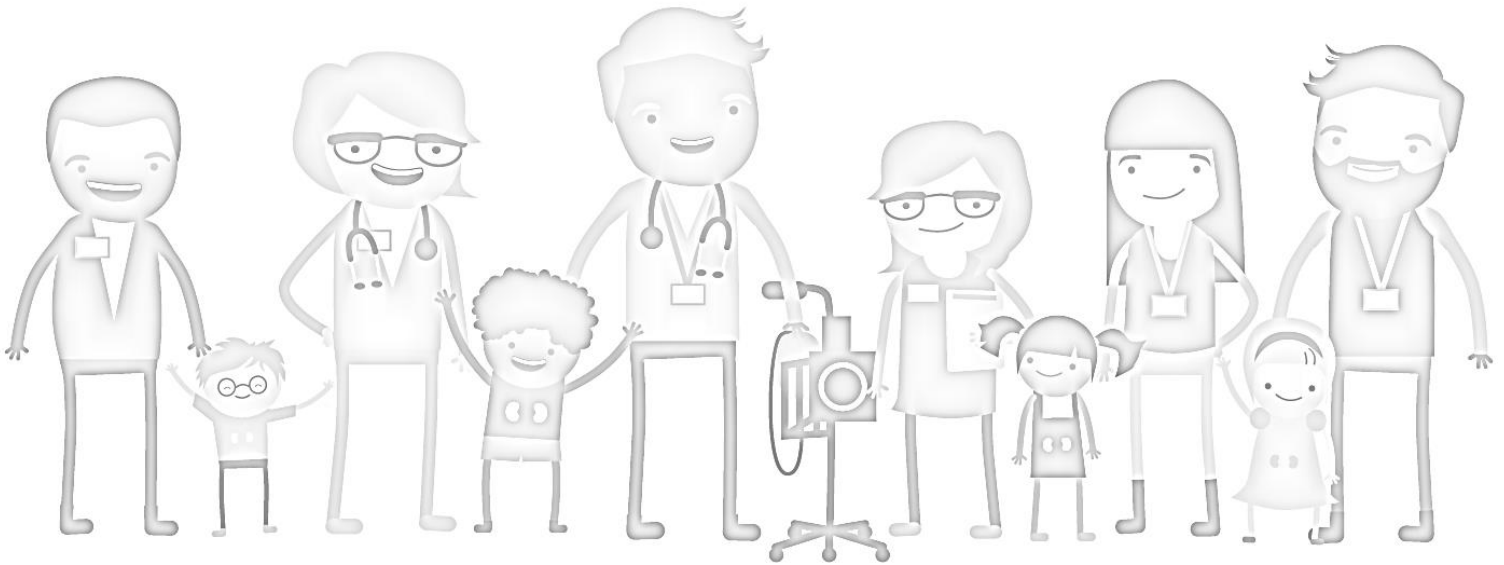

When I get a kidney transplant, I will  
feel a lot better!

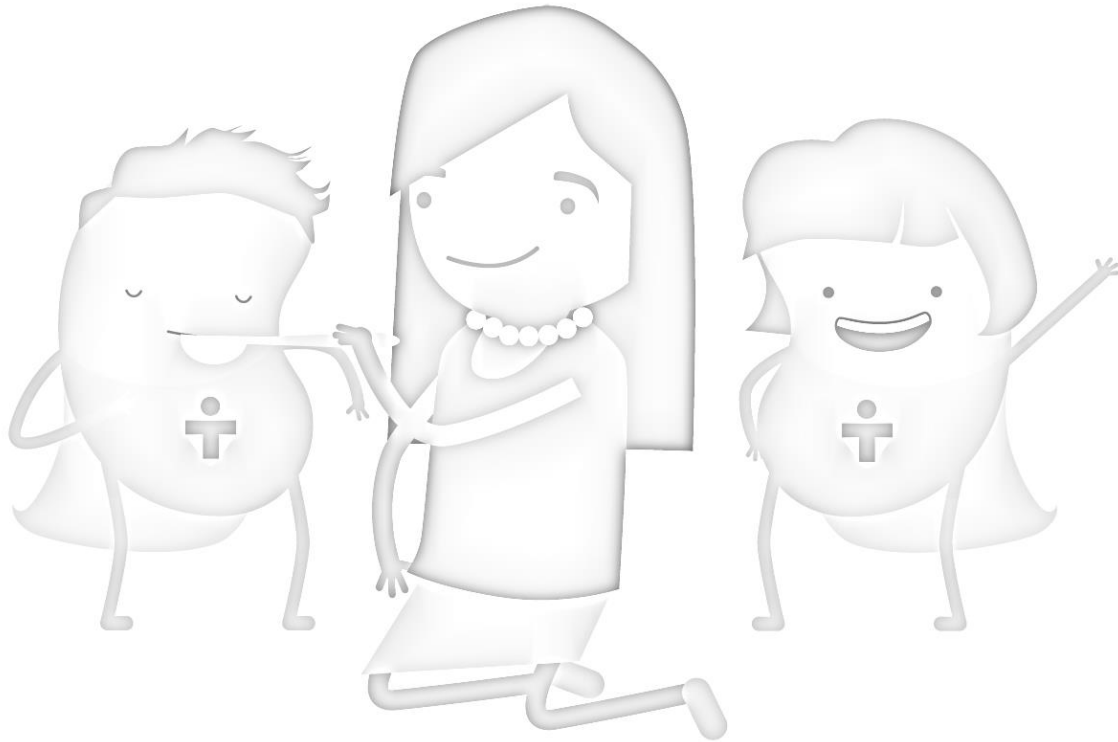

I will stay in the hospital for a while.  
Someone from my family can stay with  
me. I'm going to bring my favorite stuffy  
with me.

After the transplant, I will still need to see a lot of doctors and nurses.

I will still need to take my medicines on time, the same way, every day.

I have to go take my medicines now.  
I want to stay as healthy as I can so  
I am ready when it is time for my  
kidney transplant.
